William Moorcroft, Potter. Individuality by Design

Image Portfolio of the work of contemporary potters and ceramic designers

This selection is by no means exhaustive, but is intended to illustrate the work of ceramic artists, studio potters and commercial designers active during Moorcroft’s career, and to enable a more informed view of his individuality.

Many illustrations are freely available on Wikimedia Commons. I am particularly grateful, though, to the following specialists who have willingly given permission for images to be reproduced from their websites:
